MINUTES OF THE EXECUTIVE COMMITTEE OF THE RURAL PHONE COMPANY

The executive committee of the Curry County Rural Telephone Company met at the Chamber of Commerce rooms on Saturday night, February 21, 1920, at 7:30 o'clock.

Present Messrs. Turner, Hungate, Dennis, Pipkin, Stanfield proxy for Smithson, and numerous shareholders of the company.

In the absence of Chairman J. E. Lindley, Chas. E. Dennis was elected chairman pro tem, D. W. Jones acted as secretary.

W. W. Hungate reported that Pleasant Hill had raised its quota, and Messrs. Hammond and Alcorn

reported that Fields had more than raised its quota, and both delegations asked that Pleasant Hill and Fields be established as exchanges and that trunk lines be constructed to each.

Lee Hammond was elected director for the Fields exchange on motion of Pipkin.

The bids for building 75 miles of trunk line and installation of six wall telephone exchanges were opened, as follows:

Barry Hardware Co. \$7049.35
Oscar C. Turner \$5500.00
Nunn Electric Co. \$5162.39

After a careful consideration of the respective bids, that of the Nunn Electric Company of Clovis was accepted as being the lowest and best

bid.

D. W. Jones was elected as secretary and treasurer and at his request his bond was fixed at \$7500.00 to be given in some surety company. He was also elected manager of the company.

A committee composed of Messrs. Hungate, Turner and Pipkin was appointed to see the Chamber of Commerce and arrange with that body for his services as the joint secretary of both the Chamber of Commerce and this company.

The reports of the delegations from Fields and Pleasant Hill was approved and the secretary was instructed to make up the necessary bill of materials for 30 additional miles of line and give notice that bids would be received to furnish said material at a meeting of this board on Saturday night, February 28.

It was ordered that any community in Curry or adjoining counties desiring to connect with this system of rural phones shall make application to the Executive Committee stating the kind of line proposed to be constructed, the estimated cost of same, the kind of exchange where same is to begin and at what exchange the proposed connection is to be made; that if said application is approved by the Executive Committee such connection may be made, provided such community shall subscribe for enough stock of this company to build such proposed exchange, trunk line and connections.

The secretary was instructed to examine any local material that might be available for use in this system.

No further business appearing the committee adjourned until Saturday night, February 28th, 1920.

Chas. E. Dennis, Chairman.
D. W. Jones, Secretary.

FAIRFIELD FACTS

Dr. C. L. McClellan has been a very frequent visitor in the Fair Field settlement during the past week waiting on flu patients.

Mr. Howard Hext has also been kept busy using his car for the service of that worthy cause by keeping medicine and other necessities for the sick of the community.

School will start again about the first of March if the children keep improving.

At the present writing it is reported that Mr. Thacher's family are all up excepting little Viola. T. A. Boone's family are all up excepting John. Mr. Kennedy's family are improving. Mrs. Haynes' children are all able to be up again. J. A. Moss, who has been very ill, is improving. Mr. Bates' family are also able to be up again.

Others who are still sick with the influenza are: Mr. Hunt's folks, Mr. Board and family and Mr. J. B. Hext. Mrs. Pearl Grady is visiting her uncle, W. M. Franklin, this week. The school where she has been teaching has been closed on account of the flu.

Miss Mayme Houston has been visiting in Clovis this week.

Mr. A. T. Williams has sold his new Ford and is now moping around in a one-horse buggy.

Mr. Franklin is riding his Hereford pony and wearing his cap on one side. Look out girls!

Mr. W. O. Reeves visited T. A. Boone Sunday to see if the flu had flown.

J. A. Moss, J. S. Moss, Wm. Harpold, J. P. Williams and T. A. Boone made a business trip to Portales last Wednesday.

Several parties visited T. A.

Boone's farm during the past week for the purpose of getting locust and cherry trees. Mr. Boone says he lots of them and would be glad to give them to neighbors that need them.

ATCHISON GLOBE SIGHTS

There are many self-made hogs in this world.

Too many men would rather be brilliant than useful.

The bravest statements are made in cowardly anonymous communications.

Some young persons seem to go to university to learn how to make fun of other people.

The quickest way to become a "nobody" is to try to be somebody else instead of yourself.

Elder Burbank philosophy: "Don't be a crank, be a self-starter."

The man who thinks he knows the most about running a railroad is never a railroad man.

For years lecturers have been lec-

turing about "good citizenship." Well have they made any progress? You say it—we stutter.

We all want what we can't afford. That is what makes people restless until death claims them. None of us appreciate what we have.

People are queer. A man or a woman climbs on the scales in a grocery store or meat market, and gets weighed, and then asks if the scales are correct.

NOTICE

To the Horse and Jack men of Curry County: We want to put on a horse and Jack show on Saturday, the 20th of March, in order to show the farmers and stock raisers what we have and to encourage them to raise better stock. We will also make rules and regulations on breeding and some fancy premiums will be offered on colts. Come everybody and see for yourself. For further reference write to V. Tate, Clovis.

PIMPLES DISAPPEAR

BLACKHEADS AND BLOTCHES are removed when DRY ZENSAL is used. Pleasant as a face cream. Applied at night it works while you sleep. We have thousands of testimonials. For oily, sallow, rough, red skins it has no equal. A wonderful, harmless face bleach. Be sure to ask for Dry Zensal. All live druggists sell it.

MOLINE UNIVERSAL TRACTOR

It Solves The Farm Help Problem

With the Moline-Universal—the original two-wheel tractor—One Man can farm more land than was ever before possible, because—

One Man has power at his command equal to six horses, capable of doing the work of nine horses, due to its greater speed and endurance.

One Man operates the Moline-Universal from the seat of the implement to which it is attached, where he must sit in order to do good work.

One Man can start in the spring and go from one operation to another—plowing, harrowing, planting, cultivating, sowing, harvesting grain or corn, spreading manure, filling the silo, cutting wood, etc., doing all farm work from one year's end to another, independently of horses or hired help.

All these one-man operations are possible with the Moline-Universal because it is mounted on two wheels. It attaches direct to the implement, making one compact unit—the tractor front wheels and the implement the rear wheels. One man controls the entire outfit from the seat of the implement. There has been good reason in the past for putting a seat on implements, for it is from this point that the work must be observed and that adjustments must be made.

Being close coupled to the implement, the Moline-Universal Tractor backs as readily as it goes forward, and turns in a 16-foot circle. It steers so easily that a boy or woman can handle it as well as a man.

With the Moline-Universal one man can take care of all the requirements on the average size farm.

Plowing with two-bottoms, the Moline-Universal Tractor does as much work in one day as the ordinary three-plow tractor, due to the higher speed at which it operates, 3 1/2 miles an hour. It has the power to run at this high speed because all of its weight is traction weight—all of it is converted to pull.

The light weight of the Moline-Universal Tractor, 3380 pounds, and its high clearance—greater than that of the average cultivator—make it perfectly adapted for cultivating. It isn't the kind of tractor that does your plowing and seed bed preparation and then rests while your horses do the planting, cultivating and harvesting.

Mechanically, the Moline-Universal is the most modern tractor built, containing more refinements and improvements than any other tractor on the market.

REDUCE The Cost of Living

We do not promise the impossible, but, if you will take advantage of the special offerings—bargains—that we present from time to time,

We Positively Will Save You Money for the Quality

Our purchases are all made with a view to your saving and profit.

You can reduce your cost of living and live better if you trade here.
